

CS AI
for Health

CS AI4H SYMPOSIUM

AI for Health | Innovation | Collaboration | Real-World Impact

October 12, 2026

1:00 PM – 6:00 PM

Aggie Square,
Assembly Room

SESSION I | 1:00 PM – 2:30 PM

1:00 – 1:05

Opening Remarks - Dr. Vladimir Filkov

1:05 – 1:25

Faculty Talk: Dr. Misagh Piran

Digital Twining of the Heart

1:25 – 1:40

Kaustubh Chakravarthula

Building Digital Twins using Deep Learning to Predict Ion Channel Conductance in Biological Neurons and Neuronal Networks

1:40 – 1:55

Raiyan Jahangir

Missingness and Bias in Multimodal AI

1:55 – 2:15

Faculty Talk: Dr. Colleen Clancy

Digital Twin for the Win

2:15 – 2:30

Coffee Break (15 min)

SESSION II | 2:30 PM – 4:10 PM

2:30 – 2:50

Faculty Talk: Dr. Uma Srivatsa

From Clinical Problems to AI Solutions: Opportunities for Collaborative Research in Cardiovascular Medicine

2:50 – 3:05

Diego Lopez Mateos

Modeling Ion Channel Conformational Landscapes and Their Modulation by Protein Partners Using Deep Learning

3:05 – 3:20

Faculty Talk: Dr. Vladimir Yarov-Yarovoy

De Novo Design of Functional Ion Channel Inhibitors

3:20 – 3:35

Saisha Shetty

Building Trustworthy AI Across Clinical Domains

3:35 – 3:55

Faculty Talk: Dr. David Liem

From Community to Computation to Impact: Mapping Place-Based Drivers of Cardiometabolic HFpEF

3:55 – 4:10

Coffee Break (15 min)

SESSION III | 4:10 PM – 6:00 PM

4:10 – 4:30

Faculty Talk: Dr. Roger Goldman

Leveraging Data and Algorithms to Help Patients and Physicians During Image-Guided Procedures

4:30 – 4:45

Sophie Quynn

Modeling Neural Activity with Transformers to Predict Impulsivity in Adolescents

4:45 – 5:00

David Garcia

Machine Learning Quantification of Amyloid- β Deposits in Three Brain Regions of Over 250 Decedents with Alzheimer Disease

5:00 – 5:05

Closing Remarks - Dr. Dipak Ghosal

5:05 – 6:00

Networking

Connect and collaborate
